Taking the broad view

TWO THIRDS of Britain's television viewers thought that too much coverage was given to the last General Election. That is the first message to Lord Annan, who is heading the Government's new Committee on the Future of Broadcasting.

To help him shape the programmes of the future he wants the public to tell him of their likes and dislikes.

But, if everyone did just that the exercisers would do no more than confirm the ratings charts which are published weekly, and that means, by and large, those long, boring serials and sagas would top the list.

Surely after years of experience the television authorities must have the best idea of what the public wants to watch? At the same time they must also recognise that no matter what they put out they could never satisfy all the people all the time.

Thus Lord Annan and his 14-member committee have an unenviable task. Such is the speed of changing tastes that by the time —two and a half years hence—that the committee has completed its research, the findings will be out of date.

It would appear to be so much simpler to institute a few simple rules like old films must not be shown for at least five years after their first screening. Coronation Street should become the subject of a compulsory purchase order, and Crossroads should become a roundabout.

But, above all, nothing should be done to interfere with the protection that the On-Off switch affords.

Another setback, well admit. But look at ambulance. (Like ours, it's painted white). He grunts. "Nil desperation boat!" (In English, "Don't despair"). If Mr. Fox is not aboard, then he'll be on the quay. "An accident," grunts Curly Wee and waits with eager gaze— "Don't give up hope!" he tells the Goat. "We'll get him yet, you'll For Curly Wee is just like us in very many ways!"

♦ DERRICK HILL (left) talks to Mark Gabor, whose book *The Pin-up*, a candid investigation into the highly lucrative business of cheesecake, is about to have its second reprint.

Revealing all —Mr Gabor master of the lucrative art of cheesecake

Julie Ego, one of Britain's most popular pin-ups.

It all started out—as all good coffee-table tomes should—some sharp New York publisher thinking . . . what not what culture could do for his Christmas *72* list.

Then he remembered this guy . . . yeah! the ideal guy . . . who'd got a good background in "illustrated, gift-type" books, a few years back, and was now scratching an intermittent living rippling off fat cats, for about '75 odd a day, doing carpentry work in their apartments and knocking together . . . well, O.K., "designing and executing" . . . experimental theatre sets.

So he got together with Mark Gabor, and they started kicking a few ideas around. This was 1970.

Now Mark knew that sex was a good-seller and would look good on a coffee-table. And then he got this hunch: "There's going to be a 'nostalgia wave,' said the husband . . . and it's got to be this year."

Next they shopped around and nostalgic around together and see if they can come up with something that would look good in Pop's Christmas stocking—the one Mom leaves out for him on the coffee-table. Burlesque? . . . Hollywood sex symbols? . . . circus girls? . . . pin-ups . . . pin-ups? Pin-up! Great!!! The Pin-up!

It was a wow. Hit best-seller last left, right and centre. And it's been turned into paperback. Its sales record thus far would suggest something in the region of 200,000 copies sold in the U.S. and Great Britain by the end of this year.

Mr. Gabor has looked at the art of cheesecake (incidentally, do you know why it's called cheesecake? Well, in 1915, a New York magazine was scoring a record breaking liner for some like shot and noticed the Russian opera star, Elvira Miller. He asked her to hitch up her skirt a little, just to ginger up the picture.

Later, his editor, something of a gourmet, is

supposed to have exclaimed on seeing the resulting photograph: "Why this is better than cheesecake!" —and that's to show how it has developed, mirrored the prevailing sexual zeitgeist, and even pushed it along a little.

It is, needless to say, a large book, with examples of the genre popping out from every page. Its visual range takes in the young Shirley Temple and Paul de Feu (the first male nude pin-up to

It is, needless to say, a large book, with examples of the genre popping out from every page. Its visual range takes in the young Shirley Temple and Paul de Feu (the first male nude pin-up to

appear in a major British woman's magazine), with just about every conceivable potential pin-up in between.

Most of all, though, the book is full of ladies;

So although Pan Books, who publish the paperback edition of the U.S. book, who are now doing a second reprint, place the book in their Art/Sociology list, this is obviously a volume that would set many a plastic rainbow palpitating with emotions that had little to do with love of either subject.
